FOOTNOTE ON ISLANDS

Nothing in the way that an island is listed above should be taken to indicate IOTA Management's view as to the legal position on sovereignty. In cases of disputed sovereignty Management has normally allocated the island to the country that is perceived to exercise main administrative control. The reader's understanding of the sometimes difficult situations facing IOTA Management is requested.

AS-194P	JA6	SENKAKU ISLANDS – sovereignty disputed between Japan and China. In the absence of agreement by the two parties no credit will be given for an operation unless evidence is produced to IOTA Management in advance that specific authorisation has been granted by the government with <i>de facto</i> control for the mounting of such an operation. Copies of the special licence and permission to operate from the islands are required. An operation using a standard personal licence will not be accepted unless specifically sanctioned by the government with <i>de facto</i> control for use on the Senkaku Islands.
